Department of Civil Engineering

Date	23 rd June 2025	Maximum Marks	50+10
Course Code	HS266TEY	Duration	90+20 Min
Sem	VI	IMPROVEMENT TEST	
Universal Human Values – III			

Sl. No.	Quiz	M	BT	CO
1	Nature is made up of units which are of two kinds, one is _____ and other is _____.	02	1	2
2	Coexistence is _____ and _____.	02	1	2
3	Which are the four orders in which coexistence is expressed?	02	1	1
4	Who is the knower and what is to be known in this existence.	02	2	2
5	What is the human goal at the level of self?	02	2	1

Sl. No.	Test	M	BT	CO
1	Coexistence being ever-present, ever-effective and ever-expressing explains it briefly.	10	1	3
2	How coexistence is expressing itself into four orders of nature.	10	2	1
3	Write Innateness, natural characteristic, inheritance of four orders of the nature.	10	3	2
4	What is the Role of human being in this ever-expressing co-existence?	10	3	3
5	Which are the two models of human conduct explain briefly	10	2	4

Course outcomes:

CO 1	Understand the basic human aspiration with program of its fulfillment and meaning of resolution in the complete expanse of human living
CO 2	Understand human being in depth and see how self is central to human being
CO 3	Understand existence in depth and see how coexistence is central to existence
CO 4	Understand human conduct and the holistic way of living leading to human tradition

BT-Blooms Taxonomy, CO-Course Outcomes, M-Marks

Marks Distribution	Particulars		CO1	CO2	CO3	CO4	L1	L2	L3	L4	L5	L6

QUIZ		
Q.1	Material and consciousness	02
Q.2	Ever present, ever effective	02
Q.3	Physical, Bio, Animal, Human	02
Q.4	Self, coexistence with nature	02
Q.5	Continuous happiness, peace satisfaction	02

Q.1	Co-existence is ever present. It is present for all time and space. There is no time and there is no space where this co-existence is not there. In co-existence, every unit is energized, active, self-organized and every unit recognizes its relationship with other units and fulfils it being in space. In co-existence, every unit is performing this and there is no exception whether it is the smallest atom or a large size planet or anything in between. Co-existence is ever effective which means the principle of co-existence applies to every reality from smallest atoms to the entire nature as a whole. If you look at atom, for example, this atom is a result of co-existence between different sub-atomic particles. If you look at molecule, the molecule is coexistence of more than one atoms in space. Similarly, look at the tree and the human being. Human being itself is co-existence of self and body. Tree is co-existence of so many parts of the tree, be it the stem, the leaf, the branches, the flowers, the fruits etc. In every unit, you can see that this principle of co-existence is effective and there is no exception to it. Co-existence is ever expressing. It is not only that co-existence is ever present and ever effective but it is unfolding itself, it is expressing itself in different ways. So, co-existence is ever expressing in the form of units submerged in space. When you look at the units, there are material units and the consciousness units. We can see that the consciousness unit and other units of the nature are in coexistence with space. So, if you look at the whole thing, you can see that ultimately, it is co-existence which is expressing itself at every level	10
Q.2	physical order from atoms to planets; the bio-order from cells to big forests. Animal order starts with the activity of tasting and selecting at the level of self and is trying to evolve. Human order is active at the level of selecting/tasting, analyzing/comparing and imaging, and it has the potential to know as well as the need to know. All these are basically, expressions of co-existence. When the self associates with the human body, we have the human order. Similarly, when the self associates with the animal body, we have animal order. All these are expression of unfolding of co-existence	5

Q.3

Innateness & Natural Characteristic of 4 Orders					
FOUR ORDERS	UNITS	ACTIVITY	INNATENESS (Self-organisation)	NATURAL CHARACTERISTIC (Participation)	HERITANCE
Physical Order	Soil, Metal...	Formation - Deformation	Existence	Composition Decomposition	Constitution based
Bio Order	Plants, Trees...	"- + Respiration	" + Growth	" + Nurture-Worship	Seed based
Animal Order	Animal, Birds...	"- in Body Selecting-Testing in the Self	"- in Body Will to live in the Self	"- in Body Cruelty, Non-cruelty in the Self	Breed based
Human Order	Human Beings	"- in Body Imaging, Analysing-Comparing, Selecting-Testing in the Self Pursuit for Comprehension, Understanding & Realisation in the Self	"- in Body Will to live with Continuous happiness in the Self Right Feeling & Thought in the Self Right Understanding in the Self	"- in Body Perseverance, Bravery, Generosity, Kindness, Satisfaction, Compassion in the Self	Education & Sanskar based

Natural Characteristic: Participation in larger order Sublimation: Pass of definite conduct across generations

Q.4

The role of human being in this existence is:
 1. To understand the co-existence and
 2. To live in co-existence.

This is the role of human being in essence. This can further be expanded to say that the role of human being is to understand and to live in co-existence, harmony and relationship. The fulfilment of this role leads to continuous happiness in the self which is the basic human desire.

Understanding the co-existence has two parts:

1. To understand the co-existence which we are calling as

10

10

	knowledge 2. To ensure the feeling and the thought of co-existence; having clarity of If I extend this living in co-existence with human being in relationship with other human beings from family to world family, it results into the undivided society. Similarly, when we are living in co-existence with entire nature and we are extending it from family order to world family order, then what we get out of this is universal human order. Knowledge ↓ Resolution ↓ Undivided Society ↓ Universal Human Order Hence, what we need to do is- 1. Ensuring Knowledge & Resolution in the Self 2. Ensuring Undivided Society & Universal Human Order by working through Body, in mutual relationship	
Q.5	There can be two models of human conduct: model 1 and 2. In model 1, there are two possibilities: one when we are moving towards the higher activities of self, and the other when we are moving downwards from the highest activity of the self. Looking at the second possibility, with realization of co-existence, the understanding of harmony and contemplation of participation in the larger order gets complete. This guides the lower level activities which further guides the expression outside in terms of behavior, work and participation in the larger order. This ultimately, leads to participation in undivided society, universal human order and human tradition. The second model of human conduct is formulating it in terms of values, policy and character. Value is clarity of 'what to do' as a human being, i.e., clarity of participation in the larger order. There are 30 values to contemplate upon in the self. Policy includes details of 'how to do', i.e., the plan, program, implementation, results and evaluation. And character is expression in terms of compassionate behaviour, work and participation in the larger order.	10
